

## **Programme 2**

### **Adventureweek in Lapland**

While you visit Swedish Lapland trips with the sleddogs or snow-mobile are represented in the programme.

A rental car makes your stay independent and you can explore the country on your own.

You are accommodated in a log cabin with a fireplace on our huskyfarm in Merasjärvi, a tiny, little village with only 5 inhabitants.

During your stay you will learn a lot about life and outdoor- activities in an arctic climate.

*Many of our guests appreciate to visit Stockholm in combination with their flight back!*

### **Programme in detail**
