

Programme 3

With sleddogs across Lapland's Taiga

When the days start to get longer and the landscape shows its best side (at least if you believe the local people) we invite you to a sleddog tour. The trip lasts for 3 days in the wilderness and the length of the daily routes depends only on the weather conditions.

We sleep in simple wilderness huts equipped with a fireplace in its center.

It is important to help each other with meal-preparations and the caring of the dogs during the overnight-tour.
